

HAFCO METALMASTER GRINDERS

UNIVERSAL 'D' BIT GRINDER

(G197)

Used for grinding HSS and carbide engraving cutters with single and multiple flutes in various shapes. Made in Taiwan.

FEATURES:

- 250W 240V motor
- Taper angles 0 – 180°
- Relief angle 0 – 45°
- Negative angle 0 – 26°
- Spindle speed 3600rpm
- Weight 45kg
- Includes 9 Imp/Met collets & end mill grinding attachment

OPTIONAL ATTACHMENTS

- Drill grinding attachment (G197A)
- Lathe tool grinding attachment (G197B)

SG-818 SURFACE GRINDER

MANUAL TABLE FEED

450mm x 220mm

(G213)

FEATURES SG-816

- Quality castings and Precision Japanese P4 ball bearing spindle
- Cast iron machine body and stand for maximum rigidity and smooth operation
- Includes Dust & Coolant system
Halogen worklamp, stand,
Magnetic chuck &
Balancing kit

**150 x 400mm
Magnetic Chuck**

SG-818

CT-610 TOOL & CUTTER GRINDER

300mm x 150mm

FEATURES CT-610

- Steel roller design enables smooth worktable movement
- Air quill, made of heat treated alloys, chrome plated ground & lapped for greater accuracy
- 160 vertical travel on main spindle
- 250 x 160mm table travel
- 360° column adjustment
- 250W 240V motor
- Made in Taiwan

CT-610

IDEAL FOR END MILL AND SLOT DRILL GRINDING

Optional Accessories

Tailstocks Set R/H & L/H (G196A)

Plain Tooth Rest (G196B)

Work Holding Fixture (G196C)

Circular Saw Blade Grinding Attachment (G196D)

Universal Grinding Attachment (G196E)

SG-320 SURFACE GRINDER

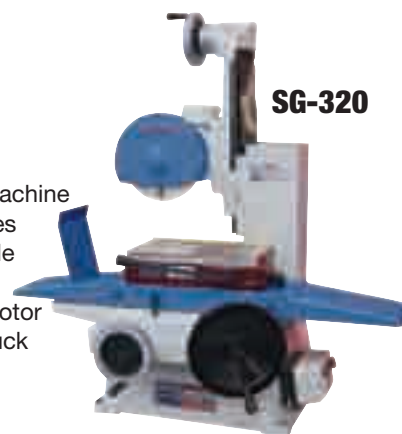

MANUAL TABLE FEED

300mm x 150mm

(G202)

FEATURES SG-320

- Precision workshop machine
- Ball bearing table slides
- Angular contact spindle bearings
- 3/4HP (550W) 240V motor
- Includes magnetic chuck (150 x 300mm)
- Made in Taiwan

SG-320
